MONTHLY PLANNER FOR AUGUST
GRADE II (2024-2025)

"All our dreams can come true, if we have the courage to pursue them."

— Walt Disney

Dear Parents,

Greetings!

Last month students joined back school with towering excitement as they got to meet their teachers and friends after a month long summer break. The month of July was filled with innumerable fun activities where children participated and enjoyed them all to the brim. Academically, children got acquainted with various new topics which were introduced using various ingenious ways which helped children grasp new concepts rapidly.

As Margerate Fuller rightly said "Once a reader, tomorrow a leader" and we believe that all our smart tots have the capability to be the leaders of the future only if they start inculcating the practice of reading books. Book Week was celebrated at the beginning of the month to make children aware of the importance of reading books and how beneficial the practice of reading can be. For the activity My Comic Strip, students gave a presentation on their favourite comic book and for the activity Famous Duos, they dressed up as famous story book duo characters and presented small acts. Change the Ending of your Favourite Story and Intra Class Poem Recitation Competition were organised too where children got to work upon their imagination and creativity.

Having an amazing father is a real blessing and in order to celebrate them, all the dear fathers were invited to school where they indulged into fun races with their wards. Students crafted special crafts for their fathers and the Father's Day celebration was truly a memorable one.

On the academic front, students got to experience hands-on learning. In EVS, they were introduced to Our Body, where they were taken to the biology laboratory in order to see real models of all our internal and external organs. Function of the lungs was demonstrated using plastic pipes and balloons which helped them understand how the lungs work in our body. While studying the chapter Our Food, students brought various types of food to the class and understood how different types of food are beneficial for our body. In English, concepts of sentences and punctuation were introduced through fun games where children got to unjumble words and constructed correct sentences along with correct punctuation marks with their peers. In Math, they were introduced to shapes where they created gardens using different shapes and were also introduced to addition through fun abacus activity.

The value of the month was Kindness. Throughout the month, we discussed what it means to be kind, and how to be empathetic towards others. Students created kindness posters, highlighting how they can demonstrate kindness in their daily lives.

Our students made rakhis for soldiers stationed at the borders. These handmade tokens are not just symbols of a festival but heartfelt expressions of gratitude and support for the brave men who protect our country.

And last but not the least, for the all round development of the child, the 33rd North and East Taekwondo Championship at Thyagraj Indoor Stadium New Delhi added another enjoyable dimension to students' lives. Under the category of Under 20 Weight, 6- 8 years, Devansh of II C clinched a bronze medal and a silver medal.

In order to celebrate our innately able students, Proficiency Ceremony for the session 2023- 24 was held with great pomp and splendour. All the proficiency holders were given a token of honour by our respected Principal ma'am which will surely encourage the young minds to keep striving for success.

Congratulations to the Proficiency Holders:
